### **[Editorial] The Psychopathy and the Sociopathy in Memphis and Shelby County, TN**

---

Memphis and Shelby County, TN have serious issues about the psychopathy and the sociopathy in terms of injury industry, legal circles, and corrupt government officials. There are heinous psychopaths and sociopaths within and from such injury industry cartels. And such criminals and suspects have been destroying innocent individuals' lives in Memphis and Shelby County, Tennessee.

Psychopathy is, according to the encyclopedia Britannica, the personality disorder which is characterized by a set of dysfunctional interpersonal, emotional, lifestyle, and antisocial tendencies. It is said that persons suffering from psychopathy—sometimes called psychopaths—commonly exhibit a lack of empathy or remorse and manifest impulsiveness, manipulateness, and deceitfulness, among other negative traits and behaviours.

Who are such abnormal or antisocial players of psychopathy in Memphis and Shelby County, TN? The core members of such suspects are the (allegedly) corrupt corporate persons, and the (allegedly) crooked lawyers including the (allegedly) corrupt judges and the (allegedly) court clerk offices' persons. And there are psychopaths and sociopaths at the rear, who are motivated by the distorted forms of the American Greed, and who are in total derangement.

Those criminals, suspects, psychopaths, or sociopaths are really endstage malignant tumors in Memphis and Shelby County, Tennessee.
